Timer sound

Time

0-15s (depends on the user)

Frame #2~~3~~

Action

An alarm panel appears from above, while on the window a meteorite can be seen targeting the Earth. Our hero has 10 seconds to save the Blue planet! He can do that with rockets, lasers or a special genie.

Interaction

Click on the Command Panel or wait 10 seconds for the meteor to hit the Earth.

Sound

"Houston, we got a problem"

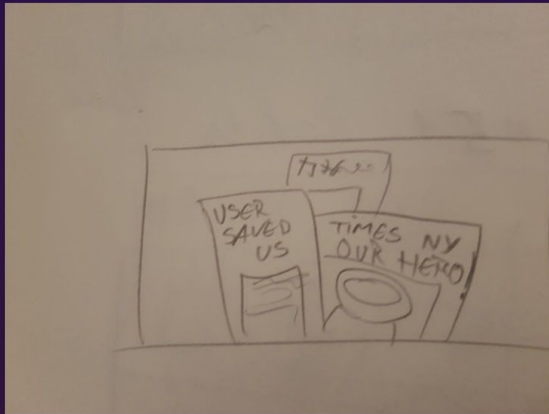

Alarm sound

Timer sound

Time

0-15s (depends on the user)

Final frame

Action

Cosmo appears in the news papers all over the world! He is our hero!

Interaction

User name will appear on the newspaper, name that will be completed at the beginning of the animation by the user.

Sound

Newspaper sound
Camera shutter sound

Time

5s

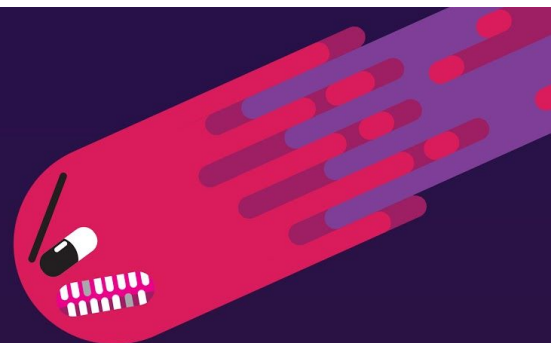

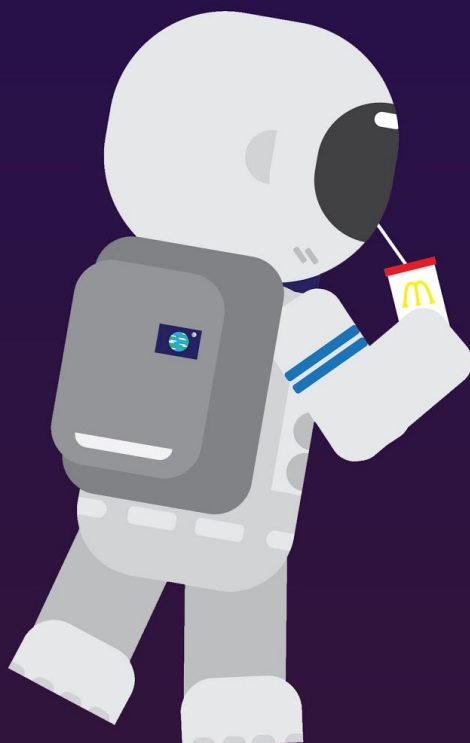

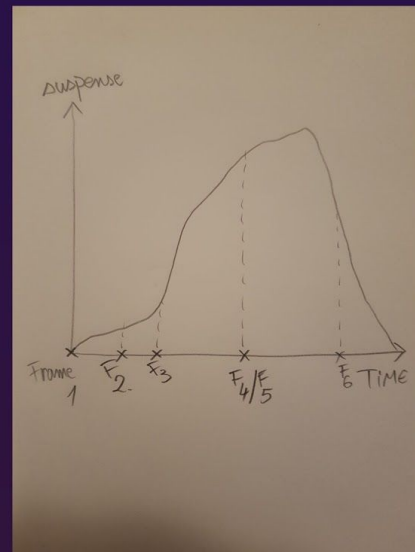

The suspense is small at the beginning, with the hero appearing into the scene.

The **point of no return** takes places when the alarm begins, rising the suspense with the sound and the image of the meteorite.

Rising action: when the timer begins, the user has little time to action.

Climax, when the timer is almost to zero, when the hero saves the Earth.

Fade out: the newspapers scene.
